

BIRTH. ✓

A motion picture portraying the care to be taken of children in the early stages of life; also kindergarten scenes and lastly a Caesarian section and the revival of a baby delivered by this method.

The picture opens showing a hospital nurse sitting at a table and describing the following scenes which are portrayed in the picture.

1. A general view of a baby's ward in a New York hospital.
2. A group of babies seated in a row, called the "Jury."
3. A party of six babies, shown, the first four one after the other and the last two together. The group is called the "Sextette."
4. A little colored baby called the "Flirt".
5. Rural scenes with hills in the distance showing different views of cattle grazing, wading through water; entering a dairy barn.
6. A view of the latter, showing the grooming and feeding of cows; also milking both by hand and by automatic milkers and further a young calf feed off its mother.
7. Natural feeding of babies, showing the care a mother should take of her breasts and the baby feeding therefrom.
8. Artificial feeding, the preparation of the milk and all the other operations pertaining thereto, such as the washing and sterilizing of the bottles and nipples, the placing of the filled bottles in a refrigerator, the heating of the milk before

its being given to the babies, and the feeding of these.

9. Showing a baby enjoying its bottle.
10. A baby asleep after having been fed.
11. Baby's toilet showing it being bathed and soaped and dried, the daily mouth wash and the way how to dress babies so that their little clothes do not cause any discomfort.
12. The daily care of eyes, ears and nose.
13. Premature babies, showing two different systems of incubation, individual and collective. The minute care given to the feeding and toilet of these particular babies and the administration of a laxative.
14. Teething, showing a young baby's first teeth and the attention it then receives.
15. Different scenes showing how babies should be put to bed and how to protect them against mosquitoes, flies, etc.
16. The arrangement of croup tent and the placing of a croup kettle.
17. The administration of an enema.
18. The right way how a baby should be lifted both when standing or seated, and how it should be held and carried in the arms.
19. Scene showing that a baby must not be kissed on either mouth or hand.
20. Kindergarten scenes showing first a general view of a kindergarten, then other scenes portraying young children playing different games, such as block building, bead-stringing, further

dancing ^{Lesson 1} fire-drill, etc.

21. Different stages of a surgical operation called Cassarian section showing first an incision through the abdominal wall, then the placing of sterile albolene pads on each side of the uterus, the opening of the latter.

22. The opening with scissors of ~~the~~ sack containing the baby and the delivery of same.

22. The clamping and cutting of the cord and the handing of the baby to an assistant.

23. Scenes portraying respectively the sewing up and dressing of the mother's wound, the fixing of the dressing with adhesive strips and the completion of the operation.

24. Portraying different methods resorted to to revive the baby.

25. Baby alive, laborious breathing at first, then normal.

26. Showing the baby being oiled, a warm belt being pinned around its abdomen, argyrol administered in the eyes.

27. Baby yawning, crying, moving both its little hands and feet.

28. Two weeks later, showing mother at the window side, with baby in her arms.

29. Baby asleep on mother's breast.
